ELMO BANKS CONSOLIDATE

Business of Citizens State and Farmers and Merchants Banks Are Merged.—Strong Organization.

The business of the Citizens State Bank of Elmo was yesterday merged into the business of the Farmers and Merchants Bank of that place and the Citizens State Bank discontinued.

Conditions co-incident to the war with the increased cost of conducting the banking business led to the merger.

This move gives Elmo one of the strongest banks in the county outside of Maryville.

TO ATTEND VAN CLEVE RITES

James Todd Left Last Night for Moberly To Be Present at Funeral of J. S. Van Cleve Today.

James Todd left last night for Moberly, Mo., to attend the funeral services for John S. Van Cleve, the father of W. C. Van Cleve of this city, who died early yesterday morning with pneumonia. The funeral services were held at Darksville, Mo., at three o'clock this afternoon. Both Mr. and Mrs. Van Cleve were called to Columbia, Mo., about three weeks ago by the serious condition of their son, William T. Van Cleve, a member of the Missouri University S. A. T. C., who was very ill with pneumonia. While awaiting the outcome of their son's illness, Mr. Van Cleve received word that his father was critically ill with pneumonia at Moberly.

Mr. and Mrs. J. S. Van Cleve had made their home in Maryville for several years and have many warm friends here.

The Moberly Evening Democrat, writing of the death of Mr. Van Cleve says:

"This well known character who has walked among us during the years had his faults, as have all mortals, but he also had splendid virtues. Among these was absolute honesty in all his dealings, fine loyalty to his friends and that kindness of heart which through more than fifty years of wedded life never failed the wife, who was his inseparable companion. He also held to the end a strong devotion from his son and grandchildren, and so passes out of life beloved and mourned, and leaving behind with these a memory worth living for."

POLLING BIG VOTE

DESPITE ABSENTEES THE TOTAL TODAY WILL BE LARGE

DEMOCRATS CONFIDENT

Indications Late This Afternoon That Entire County Democratic Ticket Would be Elected.

Despite the fact that the vote today was expected to fall below the vote in normal years, due to the absence of many voters who are in service, there is the old-time activity at the polls and the total vote promises to be considerably larger than that cast in 1916. The total vote in Maryville in 1916 for congressman was 973. The vote in the four wards shortly afternoon was 930 with many still waiting an opportunity to cast a ballot. At all of the wards the booths have been occupied continuously since early in the morning.

The voting today is necessarily slow as with nine amendments to the state constitution to be voted, many voters have not examined them until the ballots were given them.

The Republicans are making a desperate effort to land their candidates for the offices of county clerk and recorder, with the fight centered on these two places. Republican workers from other towns were imported to aid in the work of influencing voters and were busy all day around the polls.

Democratic candidates and leaders were not at all distributed by efforts of their opponents and expressed the belief that the entire Democratic ticket in the county would be returned winner.

Indications lates this afternoon were that Baker and Yeomans were ahead in all four wards. Reports from the country districts, especially from the home districts of the two candidates indicated that they were being given a heavy vote. The Republicans practically have conceded the election of the Democratic ticket.

CALL LIMITED SERVICE MEN

Department of Labor Opens Campaign for 35,000 Volunteers.—The Lines in Which They Are Needed.

Special to The Democrat-Forum.

Washington, Nov. 5.—A drive to secure thirty-five thousand volunteers from limited service men, urgently needed to fill special posts in the army, was begun today by the Department of Labor's employment service, at the request of the War Department. The men are wanted for duty in this country and will be used to release more active men for service overseas.

Only Class 1-A registrants, certified for limited service, will be taken.

All men volunteering will be inducted into the ranks as privates, and promotion to higher grades will depend on ability. Branch offices of the employment service and community labor boards over the country will receive applications for induction and give the men all necessary aid in getting into the service.

Some of the lines in which limited service men are needed and the number wanted are:

Assemblers, 2,000; chauffeurs, 6,250; clerks, 1,102; cooks, 700; laborers, 3,175; mechanics, 4,450; motor cycle drivers, 1,125; transmission men, 1,500, and tire repairers, 400. One newspaper man and three motion picture experts also are wanted.

Dr. Juvenal Recovered.

Dr. H. R. Juvenal, who has been quite ill with influenza is sufficiently recovered to be able to be back in his office a part of the day now.

CALL 290,000 MEN

LARGEST NUMBER TO ENTRAIN SINCE THE WAR BEGAN

BE IN CAMPS BY NOV. 26

Missouri's Quota Is 10,092 Men Called Are Largely From September 12 Registration.

Washington, Nov. 4. — Draft calls for the mobilization of 290,773 additional men at army training camps before Nov. 23, are announced by Provost Marshal General Crowder. Between Nov. 11 and 15, it was announced 253,335 white men physically qualified for military service will entrain, making the largest single call issued under the selective service act.

The remainder of the November total, so far as announced, will be made up of negroes for entrainment Nov. 9 to 21.

With the assembling of these men at camp the total number of men inducted into military service under the draft will have passed the 3,000,000 mark, and the number of men in the United States army, in the field or in training, will total more than 4,000,000.

Men who registered Sept. 12, under the act extending draft age limits, will make up the largest proportion of the November mobilization as the eligible list remaining from previous registrations largely was exhausted by the October calls which were suspended because of the influenza epidemic and then nearly all re-issued during the last three weeks. In states where the calls have not been re-issued men called for camp in October, will leave the men called for this month. Calls for additional men to entrain later this month are in proportion, it was said today at the office of the provost marshal general.

The call by states and camps for the entrainment of the 253,335 includes:

Arkansas, 70, Camp Pike, Ark.
Colorado, 2,930, Camp Pike.
Iowa, 2,500, Camp Greenleaf.
Iowa, 4,354, Camp Dodge, Ia.
Iowa, 1,400, Fort McArthur, Cal.
Kansas, 7,000, Camp Funston, Kan.
Kansas, 1,410, Fort Riley, Kan.
Missouri, 9,907, Kelly Field.
Nebraska, 1,000, Camp Bowie, Texas.
Nebraska, 6,000, Camp Kearney, Cal.
Oklahoma, 4,500, Camp McArthur.
Oklahoma, 5,000, Camp McClellan, Ala.
Oklahoma, 2,750, Camp Cody.
Oklahoma, 1,400, Kelly Field.

Colored registrants are called to camps from states as follows:
Arkansas, 1,000, Camp Bowie.
Arkansas, 1,094, Camp Pike.
Colorado, 10, Camp Funston.
Missouri, 95, Camp Funston.
Oklahoma, 1,000, Camp McArthur, Texas.
Texas, 43.
Oklahoma, 347, Camp Funston.

BAN MAY BE OFF THIS WEEK.

Influenza Conditions are Improving Rapidly, Says City Physician.

Anticipating that the ban would be lifted by the end of the week and that services might be held again in the churches next Sunday the publicity committee of the United War Fund Campaign are sending out letters today to the ministers asking that they devote their sermons to the needs of the boys overseas.

There is every indication that the ban will be off by the last of the week, according to Dr. F. M. Ryan, city physician, who said today that conditions were improving rapidly. No new cases have been reported today and a number who have been under quarantine have been released.

TERMS TO GERMANY ARE READY

ARMISTICE CONDITIONS ARE NOW AGREED ON BY ALLIES WITH ONE ACCORD

FOCH TO BOSS JOB

TERMS WILL B EPRESENTED TO GRMAN HIGH COMMAND BY MARSHAL IN FIELD

ARE DECLARED DRASTIC

Said to Impose More Severe Penalties Than Were Given To Austria. House to Paris.

Versailles, Nov. 5.—The inter-Allied war council completed its work with entire accord among the participants, it was announced this afternoon in the following: "The supreme council at Versailles finished its work yesterday afternoon. There was entire accord among all participants." Colonel House has returned to Paris.

Copenhagen, Nov. 5.—The Allied armistice terms for Germany will be persented to the German high command through Field Marshal Foch in the field. They will not go forward through President Wilson. This was authoritatively learned today. There are two reasons for this it is explained, the first being that the United States has no longer any definite line on exactly who are now the real rulers in Germany, and the second, that the terms of necessity effect the German military organization, consequently they should be issued by the general issimo of the Allied forces.

Copenhagen, Nov. 5.—The Bolsheviki regime in Russia is reported to have handed a note to neutral diplomats for transmission to the Allies asking for the opening of peace negotiations with the Allied countries.

London, Nov. 5.—There is no official confirmation of the report from Copenhagen that the Bolsheviki government in Russia has requested the opening of peace negotiations with the Allies.

Washington, Nov. 5.—The presumption in official circles here was that the armistice stipulations would be in the hands of the German government in less than twenty-four hours. If they are accepted, a reply settling the issue of peace or further fighting may also be received within that time.

Subjected to analysis by military officers here, both Allied and American, the terms of the Austrian armistice, which are said to be no more drastic than those for Germany, are interpreted to mean absolute surrender. Nothing is left to the good faith of the vanquished and no restrictions or limitations are imposed upon the victors.

An attempt to apply the lessons of the Austrian armistice to Germany's situation brings out several points upon which military men based their forecast of the German terms. For one thing, it is regarded as certain that complete evacuation of Alsace-Lorraine will be insiste dupon as well as the occupation of the Rhine fortresses by Allied garrisons. Surrender of the German submarines and a substantial part of the high seas fleet and the occupation of land defenses that protect German naval bases also is implied.

Must Give Up Equipment.

So far as the Germa narmy is concerned, it must go back into Germany probably without the whole vast mechanism of war which it carried into France and Belgium. All the big guns, tanks and aircraft, under the Austrian precedent, would be concentrated and left under the direct control of the Allied and American armies.

It was pointed out, however, that since Germany is the lats of the Central Powers, when she surrenders, there will be no need to provide for the employment of her military equipment by Marshal Foch. There will be no one left against whom to turn the

With Nodaway Boys Serving The Colors

ABOARD A PATROL SHIP

A Nodaway Boy Aboard the Vedette, Tells of His Experiences.

The following is an unedited and nicely worded letter from one of Nodaway county's best boys in the naval service, handed to us by Judge Ellison with a request to publish it, which we gladly do. George Greeson was born and brought up on a farm in this county. He is a grandson of the late Henry Toel, whom the older people of the county will remember as one of its best and most prominent citizens. George is making a splendid record and now holds a very important position in the naval service.

"U. S. Vedette, Oct. 16, '18.

"Dear Mr. and Mrs. Ellison: As Mr. Ellison asked me to write when I got aboard ship I will undertake the pleasant task.

"I transferred from seaman to radio branch at the Great Lakes Training Station last fall. After a few weeks I was sent to the Radio school at Harvard. I enjoyed my training there very much. We were quartered in several dormitories and used Pierce and Austin halls for instruction buildings. While there I often thot of George Rob and how different the Harvard of today is from the college he attended. There are about four thousand young men there in the service, and of course they have brought many changes. The people of Cambridge and Boston were very friendly and gave many entertainments for us.

From Harvard I was sent to the wireless telephone school for another month's instruction and then transferred to foreign service. We first viewed the coast of France on the 31st day of July.

"I was mighty glad to see land after my first twelve days at sea. I had no idea the old Atlantic was so large before that trip. We had fine weather and most of us enjoyed the voyage a great deal. We didn't see a sub but of course didn't exactly feel at ease while in the war zone. I have gotten used to being in the war zone now, and it doesn't cause any of us much worry.

"I came aboard the Vedette about the middle of August. She is a yacht doing patrol work and a very nice boat for her size. We have very rough weather at times and you should see the rolls and plunges she makes then. A fellow gets used to these times after a few weeks of torture though, and decides that the navy isn't the worst place to be.

"I had the good fortune to obtain Paris leave not long ago. I saw many trophies of the war there and quite a lot of France also. The people of Paris are so different from the people living in the cities along the coast that one would hardly believe they are of the same nationality. There are quite a few Britons in this part of the country which accounts for the big difference. We visited the Invalides in Paris, saw Napoleon's tomb, his horses, dog and armor. Also many guns and areoplanes captured from the Germans in this war. Of course I had to visit Eiffel tower, the big radio station and we all had a ride on the big wheel, 106 meters high.

"We saw many American soldiers and marines there, on leave from the front. They were glad to see us because they had not seen any sailors for a long time and they said we looked more like civilization than anything they had seen since landing.

"We have been expecting peace for the last few weeks and it surely isn't far off. Mr. Wilson is handling the affair fine and everyone of us have confidence that all will come out right in the end. We receive the notes that are being sent back and forth, by radio, and of course talk them over all the time. Everyone is talking of home and longing to go back to the States but we will have to stay until we teach the Germans how to behave themselves. I tried to get a furlough before I left New London but in time of war a fellow is fortunate who gets a leave of any kind. The letters from my folks and friends at home go a long ways towards keeping me from getting homesick, so I do not find it so very unpleasant over here after all. I have not had much sickness since I was called and hope to come back home in good health. We have better living quarters than most of the soldiers, so stand a better chance to keep in good health.

"I hope you folks are well and getting all the joys possible out of life.

"I often think of the big brick house and the northwest room which used to be mine. Mr. Scarlett is also in the navy. He was at Great Lakes the last I heard, in the aviation branch.

Obituary.

Opal Pearl Criss, daughter of Mr. and Mrs. O. W. Criss, was born February 17, 1911, and departed this life October 29, 1918, aged 7 years, 8 months and 12 days.

She leaves to mourn their loss, her father, two brothers and one sister, besides her grandparents, with whom she had made her home since the death of her mother two years ago. Besides her mother, two brothers and one sister have preceded her.

The funeral services were conducted at the grave in the Dunkard cemetery by Challie E. Graham, October 31, 1918, after which the remains were laid to rest to await the bright resurrection morning when they shall be summoned from their bed of clay to put on immortality.

Opal was a bright, sunny child, loved by all who knew her. The many friends join in extending their sympathy to those bereaved of this little one.

We had a little treasure once,
She was our joy and pride.
We loved her, ah, perhaps too well,
For soon she slept and died.

All is dark within our dwelling,
Lonely are our hearts today;
For the one we loved so dearly
Has forever passed away.

KARL KISSINGER WOUNDED

Receives Six Shell Wounds in St. Mihiel Drive Sept. 27.—Writes to Brother From Hospital.

Carl Kissinger, a son of Mr. and Mrs. Enos Kissinger of Barnard, was wounded in the big drive at St. Mihiel, France, and is now in a hospital. He was struck by a high explosive shell Sept. 27, and was wounded in six places.

In a letter to his borther, Earl, of this city, Carl writes:

"I was wounded Sept. 27 by a high explosive shell. I got it in six different places. The square heads shot me up pretty bad but I like a whole lot of being dead yet. My worst wound is in the left hip. It is about ten inches long, from one and a half to two and a half inches deep. The major who operated upon me, said that although it was a bad wound, it wasn't dangerous as it is in the fleshy part of my hip. I got two scalp wounds two in the right leg and one in the right arm. It sure could have been a lot worse. I suppose you have already read about the drive? The 138th Infantry led the attack in our sector. It puts me in mind of hunting buck rabbits and of course a fellow doesn't think much more about shooting square heads than he does rabbits, so you see we walked right through them. I got mine about four o'clock on the second day of the drive * * *

I met Phine Reynolds some time ago He is with Company L, 139th Infantry and you should have see him when we met.

ROADS NOT A LOCAL ISSUE

Building Must Be on National Plan to Give Greatest Benefit.

The road problem of this country from any angle—commercial, economic, social, military, defense, political, agricultural—is not a local issue. It cannot be solved by the states. If every state in the Union should have as good a state road system as Massachusetts, national roads would still be a problem.

When a man builds a path in his garden he builds it to go where he want to walk—not where his neighbors wish to walk. When a town builds a road it builds it where the town wants it—not where the next town is best served. When a county builds a road it builds it from one end to the county seat—not to serve the next county. When a state builds a road system it connects its own important cities and makes it easy for its own people to get about, without much thought for the man across the state line. When the United States builds a road as a nation it must solve its difficulties by building a system which considers the country as a whole, not as a collection of political units with voters who must be placated.

guns. The terms for Germany, therefore, probably will show that variation from the Austrian conditions.

One feature of the Austrian surrender conditions which is thought here to have been duplicated in the German terms is the entrusting to Marshal Foch of the carrying out of the programs of demobilization and disarmament.

Must Accept or Face Debacle.

The judgment of army officers as to the situation on the western front in a military sense is that Germany must accept the armistice conditions or face a debacle of her armies.

Public Notice

To any person that wants to make more money, come to Wyoming and buy you a farm where the crop in one year will pay for the land and where one acre put in potatoes will pay for five acres at the present price; where you and your family will be healthy and you are sure to prosper if you work and try like you have to in Missouri. Now I know what I am saying, as I lived here in good old Missouri for 18 years and always tried hard to get us a home, but when I left here three years ago I owed over $1,600.00 of debts here that I could not pay, but have paid them since I went to Wyoming. I am only telling you this to encourage you to come. We have good schools good churches, good water and climate, and as good people as you can find anywhere. I have land I can sell from $15.00 per acre up to $50.00 per acre. Close to two good railroads. Have got a 2,400 acre ranch at $25.00 per acre that is sure a bargain.

Now the first reason I want you to come to Wyoming is, because if you come and buy a farm I get a small commission out of it, but that is not the best reason. I know I will be doing you a favor and know you will always be glad you come. Now, in case some stranger to me should read this ad. I will give you as reference some of the best men in Nodaway County or any other county. In Parnell, James Barber, W. N. Morgan, C. C. Evans, A. J. Roof, Bill Jackson; Ravenwood, Mo., S. E. Wells, and V. O. Hunt; Barnard, Mo., George Cole, banker; Gaynor City, Mo., Charlie Lewis; Sheridan, Mo., C. C. Hall; Hopkins, Mo., Albert Mutti; Maryville, Mo., Nathaniel Sisson, U. S. Wright, Henry Wright, James Robinson. For any information about this county, if you can't see me when I am here, write me at Carpenter, Wyo. I took three men out with me two weeks ago and sold all three a farm. Would be glad to have you talk to any of these men: Cecil Talkington of Parnell or Elmer Talkington and Pete Mumford of Bedford, Iowa. We raise corn, wheat, oats, barley, rye, speltz, flax, millet, cane and potatoes, alfalfa and good gardens. Poultry of all kinds do well. Stock of all kinds do well, especially hogs, as hog cholera is unknown.

The only way you can realize what a good county we have is to come and see it. For further information, write—

Frank Bebb, Carpenter, Wyoming

ELMO BANKS CONSOLIDATE

Business of Citizens State and Farmers and Merchants Banks Are Merged.—Strong Organization.

The business of the Citizens State Bank of Elmo was yesterday merged into the business of the Farmers and Merchants Bank of that place and the Citizens State Bank discontinued.

Conditions co-incident to the war with the increased cost of conducting the banking business led to the merger.

This move gives Elmo one of the strongest banks in the county outside of Maryville.

O'Malley of Arizona, Sister Mary Placida of Walla Walla, Wash., Miss Elizabeth Stephens of Spokane, Wash, Mrs. Ed Gaynor of Sheridan, George Stephens of Riverside, Ia., and Adam Stephens of St. Joseph. TO ATTEND VAN CLEVE RITES

James Todd Left Last Night for Moberly To Be Present at Funeral of J. S. Van Cleve Today.

James Todd left last night for Moberly, Mo., to attend the funeral services for John S. Van Cleve, the father of W. C. Van Cleve of this city, who died early yesterday morning with pneumonia. The funeral services were held at Darksville, Mo., at three o'clock this afternoon. Both Mr. and Mrs. Van Cleve were called to Columbia, Mo. about three weeks ago by the serious condition of their son, William T. Van Cleve, a member of the Missouri University S. A. T. C., who was very ill with pneumonia. While awaiting the outcome of their son's illness, Mr. Van Cleve received word that his father was critically ill with pneumonia at Moberly.

Mr. and Mrs. J. S. Van Cleve had made their home in Maryville for several years and have many warm friends here.

The Moberly Evening Democrat, writing of the death of Mr. Van Cleve says:

"This well known character who has walked among us during the years had his faults, as have all mortals, but he also had splendid virtues. Among these was absolute honesty in all his dealings, fine loyalty to his friends and that kindness of heart which through more than fifty years of wedded life never failed the wife, who was his inseparable companion. He also held to the end a strong devotion from his son and grandchildren, and so passes out of life beloved and mourned, and leaving behind with these a memory worth living for."

Visiting in Kansas City.

Mrs. J. B. Robinson left for Kansas City this morning to spend a few days visiting her niece, Mrs. H. Perkins.

POLLING BIG VOTE

DESPITE ABSENTEES THE TOTAL TODAY WILL BE LARGE

DEMOCRATS CONFIDENT

Indications Late This Afternoon That Entire County Democratic Ticket Would be Elected.

Despite the fact that the vote today was expected to fall below the vote in normal years, due to the absence of many voters who are in service, there is the old-time activity at the polls and the total vote promises to be considerably larger than that cast in 1916. The total vote in Maryville in 1916 for congressman was 973. The vote in the four wards shortly afternoon was 930 with many still waiting an opportunity to cast a ballot. At all of the wards the booths have been occupied continuously since early in the morning.

The voting today is necessarily slow as with nine amendments to the state constitution to be voted, many voters have not examined them until the ballots were given them.

The Republicans are making a desperate effort to land their candidates for the offices of county clerk and recorder, with the fight centered on these two places. Republican workers from other towns were imported to aid in the work of influencing voters and were busy all day around the polls.

Democratic candidates and leaders were not at all distributed by efforts of their opponents and expressed the belief that the entire Democratic ticket in the county would be returned winner.

Indications lates this afternoon were that Baker and Yeomans were ahead in all four wards. Reports from the country districts, especially from the home districts of the two candidates indicated that they were being given a heavy vote. The Republicans practically have conceded the election of the Democratic ticket.

CALL LIMITED SERVICE MEN

Department of Labor Opens Campaign for 35,000 Volunteers.—The Lines in Which They Are Needed.

Special to The Democrat-Forum.

Washington, Nov. 5.—A drive to secure thirty-five thousand volunteers from limited service men, urgently needed to fill special posts in the army, was begun today by the Department of Labor's employment service, at the request of the War Department. The men are wanted for duty in this country and will be used to release more active men for service overseas.

Only Class 1-A registrants, certified for limited service, will be taken.

All men volunteering will be inducted into the ranks as privates, and promotion to higher grades will depend on ability. Branch offices of the employment service and community labor boards over the country will receive applications for induction and give the men all necessary aid in getting into the service.

Some of the lines in which limited service men are needed and the number wanted are:

Assemblers, 2,000; chauffeurs, 6,250; clerks, 1,102; cooks, 700; laborers, 3,175; mechanics, 4,450; motor cycle drivers, 1,125; transmission men, 1,500, and tire repairers, 400. One newspaper man and three motion picture experts also are wanted.

Dr. Juvenal Recovered.

Dr. H. R. Juvenal, who has been quite ill with influenza is sufficiently recovered to be able to be back in his office a part of the day now.

CALL 290,000 MEN

LARGEST NUMBER TO ENTRAIN SINCE THE WAR BEGAN

BE IN CAMPS BY NOV. 26

Missouri's Quota Is 10,092 Men Called Are Largely From September 12 Registration.

Washington, Nov. 4. — Draft calls for the mobilization of 290,773 additional men at army training camps before Nov. 23, are announced by Provost Marshal General Crowder. Between Nov. 11 and 15, it was announced 253,335 white men physically qualified for military service will entrain, making the largest single call issued under the selective service act.

The remainder of the November total, so far as announced, will be made up of negroes for entrainment Nov. 9 to 21.

With the assembling of these men at camp the total number of men inducted into military service under the draft will have passed the 3,000,000 mark, and the number of men in the United States army, in the field or in training, will total more than 4,000,000.

Men who registered Sept. 12, under the act extending draft age limits, will make up the largest proportion of the November mobilization as the eligible list remaining from previous registrations largely was exhausted by the October calls which were suspended because of the influenza epidemic and then nearly all re-issued during the last three weeks. In states where the calls have not been re-issued men called for camp in October, will leave the men called for this month. Calls for additional men to entrain later this month are in proportion, it was said today at the office of the provost marshal general.

The call by states and camps for the entrainment of the 253,335 includes:

Arkansas, 70, Camp Pike, Ark.
Colorado, 2,930, Camp Pike.
Iowa, 2,500, Camp Greenleaf.
Iowa, 4,354, Camp Dodge, Ia.
Iowa, 1,400, Fort McArthur, Cal.
Kansas, 7,000, Camp Funston, Kan.
Kansas, 1,410, Fort Riley, Kan.
Missouri, 9,907, Kelly Field.
Nebraska, 1,000, Camp Bowie, Texas.

Oklahoma, 4,500, Camp McArthur.
Oklahoma, 5,000, Camp McClellan, Ala.
Oklahoma, 2,750, Camp Cody.

Colored registrants are called to camps from states as follows:

Arkansas, 1,000, Camp Bowie.
Arkansas, 1,094, Camp Pike.
Colorado, 10, Camp Funston.
Missouri, 95, Camp Funston.
Oklahoma, 1,000, Camp McArthur, Texas.
Texas, 43.
Oklahoma, 347, Camp Funston.

BAN MAY BE OFF THIS WEEK.

Influenza Conditions are Improving Rapidly, Says City Physician.

Anticipating that the ban would be lifted by the end of the week and that services might be held again in the churches next Sunday the publicity committee of the United War Fund Campaign are sending out letters today to the ministers asking that they devote their sermons to the needs of the boys overseas.

There is every indication that the ban will be off by the last of the week, according to Dr. F. M. Ryan, city physician, who said today that conditions were improving rapidly. No new cases have been reported today and a number who have been under quarantine have been released.

TERMS TO GERMANY ARE READY

ARMISTICE CONDITIONS ARE NOW AGREED ON BY ALLIES WITH ONE ACCORD

FOCH TO BOSS JOB

TERMS WILL B EPRESENTED TO GRMAN HIGH COMMAND BY MARSHAL IN FIELD

ARE DECLARED DRASTIC

Said to Impose More Severe Penalties Than Were Given To Austria. House to Paris.

Versailles, Nov. 5.—The inter-Allied war council completed its work with entire accord among the participants, it was announced this afternoon in the following: "The supreme council at Versailles finished its work yesterday afternoon. There was entire accord among all participants." Colonel House has returned to Paris.

Copenhagen, Nov. 5.—The Allied armistice terms for Germany will be persented to the German high command through Field Marshal Foch in the field. They will not go forward through President Wilson. This was authoritatively learned today. There are two reasons for this it is explained, the first being that the United States has no longer any definite line on exactly who are now the real rulers in Germany, and the second, that the terms of necessity effect the German military organization, consequently they should be issued by the general issimo of the Allied forces.

Copenhagen, Nov. 5.—The Bolsheviki regime in Russia is reported to have handed a note to neutral diplomats for transmission to the Allies asking for the opening of peace negotiations with the Allied countries.

London, Nov. 5.—There is no official confirmation of the report from Copenhagen that the Bolsheviki government in Russia has requested the opening of peace negotiations with the Allies.

Washington, Nov. 5.—The presumption in official circles here was that the armistice stipulations would be in the hands of the German government in less than twenty-four hours. If they are accepted, a reply settling the issue of peace or further fighting may also be received within that time.

Subjected to analysis by military officers here, both Allied and American, the terms of the Austrian armistice, which are said to be no more drastic than those for Germany, are interpreted to mean absolute surrender. Nothing is left to the good faith of the vanquished and no restrictions or limitations are imposed upon the victors.

An attempt to apply the lessons of the Austrian armistice to Germany's situation brings out several points upon which military men based their forecast of the German terms. For one thing, it is regarded as certain that complete evacuation of Alsace-Lorraine will be insiste dupon as well as the occupation of the Rhine fortresses by Allied garrisons. Surrender of the German submarines and a substantial part of the high seas fleet and the occupation of land defenses that protect German naval bases also is implied.

Must Give Up Equipment.

So far as the Germa narmy is concerned, it must go back into Germany probably without the whole vast mechanism of war which it carried into France and Belgium. All the big guns, tanks and aircraft, under the Austrian precedent, would be concentrated and left under the direct control of the Allied and American armies.

It was pointed out, however, that since Germany is the lats of the Central Powers, when she surrenders, there will be no need to provide for the employment of her military equipment by Marshal Foch. There will be no one left against whom to turn the

ABOARD A PATROL SHIP

A Nodaway Boy Aboard the Vedette, Tells of His Experiences.

The following is an unedited and nicely worded letter from one of Nodaway county's best boys in the naval service, handed to us by Judge Ellison with a request to publish it, which we gladly do. George Greeson was born and brought up on a farm in this county. He is a grandson of the late Henry Toel, whom the older people of the county will remember as one of its best and most prominent citizens. George is making a splendid record and now holds a very important position in the naval service.

"U. S. Vedette, Oct. 16, '18.

"Dear Mr. and Mrs. Ellison: As Mr. Ellison asked me to write when I got aboard ship I will undertake the pleasant task.

"I transferred from seaman to radio branch at the Great Lakes Training Station last fall. After a few weeks I was sent to the Radio school at Harvard. I enjoyed my training there very much. We were quartered in several dormitories and used Pierce and Austin halls for instruction buildings. While there I often thot of George Rob and how different the Harvard of today is from the college he attended. There are about four thousand young men there in the service, and of course they have brought many changes. The people of Cambridge and Boston were very friendly and gave many entertainments for us.

From Harvard I was sent to the wireless telephone school for another month's instruction and then transferred to foreign service. We first viewed the coast of France on the 31st day of July.

"I was mighty glad to see land after my first twelve days at sea. I had no idea the old Atlantic was so large before that trip. We had fine weather and most of us enjoyed the voyage a great deal. We didn't see a sub but of course didn't exactly feel at ease while in the war zone. I have gotten used to being in the war zone now, and it doesn't cause any of us much worry.

"I came aboard the Vedette about the middle of August. She is a yacht doing patrol work and a very nice boat for her size. We have very rough weather at times and you should see the rolls and plunges she makes then. A fellow gets used to these times after a few weeks of torture though, and decides that the navy isn't the worst place to be.

"I had the good fortune to obtain Paris leave not long ago. I saw many trophies of the war there and quite a lot of France also. The people of Paris are so different from the people living in the cities along the coast that one would hardly believe they are of the same nationality. There are quite a few Britons in this part of the country which accounts for the big difference. We visited the Invalides in Paris, saw Napoleon's tomb, his horses, dog and armor. Also many guns and areoplanes captured from the Germans in this war. Of course I had to visit Eiffel tower, the big radio station and we all had a ride on the big wheel, 196 meters high.

"We saw many American soldiers and marines there, on leave from the front. They were glad to see us because they had not seen any sailors for a long time and they said we looked more like civilization than anything they had seen since landing.

"We have been expecting peace for the last few weeks and it surely isn't far off. Mr. Wilson is handling the affair fine and everyone of us have confidence that all will come out right in the end. We receive the notes that are being sent back and forth, by radio, and of course talk them over all the time. Everyone is talking of home and longing to go back to the States but we will have to stay until we teach the Germans how to behave themselves. I tried to get a furlough before I left New London but in time of war a fellow is fortunate who gets a leave of any kind. The letters from my folks and friends at home go a long ways towards keeping me from getting homesick, so I do not find it so very unpleasant over here after all. I have not had much sickness since I was called and hope to come back home in good health. We have better living quarters than most of the soldiers, so stand a better chance to keep in good health.

"I hope you folks are well and getting all the joys possible out of life.

"I often think of the big brick house and the northwest room which used to be mine. Mr. Scarlett is also in the navy. He was at Great Lakes the last I heard, in the aviation branch.

"Yours very truly,

"GEO. A. CREESON, JR.,

"U. S. Naval Forces, U. S. S. Vedette, care Postmaster, New York City."

Obituary.

Opal Pearl Criss, daughter of Mr. and Mrs. O. W. Criss, was born February 17, 1911, and departed this life October 29, 1918, aged 7 years, 8 months and 12 days.

She leaves to mourn their loss, her father, two brothers and one sister, besides her grandparents, with whom she had made her home since the death of her mother two years ago. Besides her mother, two brothers and one sister have preceded her.

The funeral services were conducted at the grave in the Dunkard cemetery by Challie E. Graham, October 31, 1918, after which the remains were laid to rest to await the bright resurrection morning when they shall be summoned from their bed of clay to put on immortality.

Opal was a bright, sunny child, loved by all who knew her. The many friends join in extending their sympathy to those bereaved of this little one.

We had a little treasure once,
She was our joy and pride.
We loved her, ah, perhaps too well,
For soon she slept and died.

All is dark within our dwelling,
Lonely are our hearts today;
For the one we loved so dearly
Has forever passed away.

KARL KISSINGER WOUNDED

Receives Six Shell Wounds in St. Mihiel Drive Sept. 27.—Writes to Brother From Hospital.

Carl Kissinger, a son of Mr. and Mrs. Enos Kissinger of Barnard, was wounded in the big drive at St. Mihiel, France, and is now in a hospital. He was struck by a high explosive shell Sept. 27, and was wounded in six places.

In a letter to his borther, Earl, of this city, Carl writes:

"I was wounded Sept. 27 by a high explosive shell. I got it in six different places. The square heads shot me up pretty bad but I like a whole lot of being dead yet. My worst wound is in the left hip. It is about ten inches long, from one and a half to two and a half inches deep. The doctor who operated upon me, said that although it was a bad wound, it wasn't dangerous as it is in the fleshy part of my hip. I got two scalp wounds two in the right leg and one in the right arm. It sure could have been a lot worse. I suppose you have already read about the drive? The 158th Infantry led the attack in our sector. It puts me in mind of hunting buck rabbits and of course a fellow doesn't think much more about shooting square heads than he does rabbits, so you see we walked right through them. I got mine about four o'clock on the second day of the drive. * * *

I met Phine Reynolds some time ago He is with Company L, 139th Infantry and you should have see him when we met.

ROADS NOT A LOCAL ISSUE

Building Must Be on National Plan to Give Greatest Benefit.

The road problem of this country from any angle—commercial, economic, social, military, defense, political, agricultural—is not a local issue. It cannot be solved by the states. If every state in the Union should have as good a state road system as Massachusetts, national roads would still be a problem.

When a man builds a path in his garden he builds it to go where he want to walk—not where his neighbors wish to walk. When a town builds a road it builds it where the town wants it—not where the next town is best served. When a county builds a road it builds it from one end to the county seat—not to serve the next county. When a state builds a road system it connects its own important cities and makes it easy for its own people to get about, without much thought for the man across the state line. When the United States builds a road as a nation it must solve there is an individuality in heartbeats its difficulties by building a system affecting the handwriting to such a whole, not as a collection of political units with voters who must be placated.

TERMS TO GERMANY ARE READY

guns. The terms for Germany, therefore, probably will show that variation from the Austrian conditions.

One feature of the Austrian surrender conditions which is thought here to have been duplicated in the German terms is the entrusting to Marshal Foch of the carrying out of the programs of demobilization and disarmament.

Must Accept or Face Debacle.

The judgment of army officers as to the situation on the westren front in a military sense is that Germany must accept the armistice conditions or face a debacle of her armies.

A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole.

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.

Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest (it often prevents pneumonia). Nothing like Musterole for croupy children. Keep it handy for instant use.

30c and 60c jars; hospital size $2.50.

Public Notice

To any person that wants to make more money, come to Wyoming and buy you a farm where the crop in one year will pay for the land and where one acre put in potatoes will pay for five acres at the present price; where you and your family will be healthy and you are sure to prosper if you work and try like you have to in Missouri. Now I know what I am saying, as I lived here in good old Missouri for 18 years and always tried hard to get us a home, but when I left here three years ago I owed over $1,600.00 of debts here that I could not pay, but have paid them since I went to Wyoming. I am only telling you this to encourage you to come. We have good schools good churches, good water and climate, and as good people as you can find anywhere. I have land I can sell from $15.00 per acre up to $50.00 per acre. Close to two good railroads. Have got a 2,400 acre ranch at $25.00 per acre that is sure a bargain.

Now the first reason I want you to come to Wyoming is, because if you come and buy a farm I get a small commission out of it, but that is not the best reason. I know I will be doing you a favor and know you will always be glad you come. Now, in case some stranger to me should read this ad. I will give you as reference some of the best men in Nodaway County or any other county. In Parnell, James Barber, W. N. Morgan, C. C. Evans, A. J. Roof, Bill Jackson; Ravenwood, Mo., S. E. Wells, and V. O. Hunt; Barnard, Mo., George Cole, banker; Gaynor City, Mo., Charlie Lewis; Sheridan, Mo., C. C. Hall; Hopkins, Mo., Albert Mutti; Maryville, Mo., Nathaniel Sisson, U. S. Wright, Henry Wright, James Robinson. For any information about this county, if you can't see me when I am here, write me at Carpenter, Wyo. I took three men out with me two weeks ago and sold all three a farm. Would be glad to have you talk to any of these men: Cecil Talkington of Parnell or Elmer Talkington and Pete Mumford of Bedford, Iowa. We raise corn, wheat, oats, barley, rye, speltz, flax, millet, cane and potatoes, alfalfa and good gardens. Poultry of all kinds do well. Stock of all kinds do well, especially hogs, as hog cholera is unknown.

The only way you can realize what a good county we have is to come and see it. For further information, write—

Frank Bebb, Carpenter, Wyoming
